

ALLEGRA CONCERT BAND

INDOOR REHEARSAL - PLAYER INSTRUCTIONS - REV E

It is the responsibility of all players to read and abide by the precautions set in place by the rehearsal Risk Assessment.

Rehearsal and set-up instructions:

- If you have any Covid-19 symptoms **please do not attend** rehearsals.
- We understand that it's not always easy to commit to meeting in large groups, while the UK is trying to control the Covid-19 pandemic. Please do not feel that there is any pressure on you to return to rehearsals or events, we will always respect your decisions.
- We politely request that members wear a facemask, especially when near or talking to any of the band's more vulnerable members.
- We suggest that players use Covid-19 rapid lateral flow test kits to help stop the spread of Coronavirus.
- Please see the Band Layout Plan to locate your position within the band. The chairs are set out in advance of members arriving and are still spaced 2 metres apart, this is to help protect any vulnerable members. If you would like to decrease the spacing you will need the agreement of the members around you.
- Players will not be able to gain entry to the hall until 10 minutes before the rehearsal.
- Please scan the QR poster code when you enter the rehearsal venue.
- Hand sanitizer will be located close to the entrance.
- Please bring your own music stand.
- To minimise handling please bring your own music. Music can be downloaded from the MUSIC area on the website <https://www.allegraconcertband.net/music-downloads>
- The music pads are available but the committee would prefer that members use their own personal music files.
- Please do not help anyone else set up or dismantle his or her equipment.

- Please collect moisture from your instrument on a clean cloth which you must take home in a bag.
- The ladies and mens toilets are both available.
- Please return your chair to the stacks in the corners of the hall (10 per stack).

We know that this is a lot to contend with before starting a rehearsal but hopefully these precautions will help us reduce the spread of coronavirus.

Now let's enjoy our rehearsal :-)
